

afp Index to Volume 36

July 1987 through December 1987

Key to Index Abbreviations

- ed Editorial
- FDA FDA Perspectives
- med Medigrams
- tip Tips from Other Journals
- Scientific Article

Subject Index

A

- abdominal pain, acute, sickle cell anemia and (*tip*), October, p. 314
- achalasia, treatment of (*tip*), July, p. 260
- adolescent boys, homosexuality in (*tip*), September, p. 322
- adolescent fathers, antisocial behavior in (*tip*), July, p. 251
- adolescents and sexually transmitted disease, *August, p. 127
- adolescents' problems, family physicians confront (*news*), November, p. 292
- adrenal hyperplasia, congenital, late-onset (*tip*), September, p. 264
- affective disorder(s)
 - lithium therapy for, *July, p. 169
 - seasonal (*tip*), September, p. 264
- aging, physiology of, *July, p. 112
- AIDS
 - acquired in Africa (*tip*), August, p. 219
 - ampligen may improve treatment of (*news*), August, p. 236
 - and the brain, *December, p. 101
 - and condoms (FDA), December, p. 229
 - gallium scanning in (*tip*), July, p. 218
 - in health care workers, CDC guidelines to prevent (*news*), October, p. 357
 - risk of, after herpes zoster (*tip*), September, p. 266
 - subsequent, lymphadenopathy syndrome and (*tip*), July, p. 270
 - in women, (*tip*), September, p. 310
- AIDS patients with Kaposi's sarcoma may benefit from zidovudine (*med*), September, p. 251
- AIDS-related complex, herpes zoster as a sign of, *October, p. 233
- AIDS syndrome, fetal, scoring system for (*tip*), November, p. 251
- AIDS vaccine trials, first, begin in humans (*news*), October, p. 353
- air gun injuries in children, *December, p. 157
- akathisia, low serum iron status and (*tip*), November, p. 244
- alcoholism in the elderly, *August, p. 163
- alimentary tract surgery, antibiotic activity and (*tip*), July, p. 270
- alpha-fetoprotein levels, elevated, signify various problems (*med*), November, p. 237
- Alzheimer's disease: making the diagnosis, *November, p. 196
- amantadine in multiple sclerosis (*tip*), July, p. 220
- amebic hepatic abscess, *September, p. 173
- amiodarone, thrombocytopenia induced by (*tip*), August, p. 231
- ampligen
 - may improve treatment of AIDS (*news*), August, p. 236
 - therapeutic potential of, *October, p. 253
- amnesia, global, transient, in travelers (*tip*), November, p. 280
- anemia, sickle cell, and acute abdominal pain (*tip*), October, p. 314
- aneurysms, coronary artery, in Kawasaki disease (*tip*), July, p. 266
- angina-like pain, irritable esophagus: a frequent cause of (*tip*), December, p. 209
- angiodysplasia, colonic (*tip*), September, p. 322
- angiography in isolated cerebral vasculitis (*tip*), September, p. 282
- angioplasty
 - coronary, myocardial infarction following (*tip*), September, p. 307
 - renal artery rupture following (*tip*), July, p. 263
- anisakiasis, *August, p. 137
- anorectic drugs, psychotomimetic effects of, *August, p. 107
- antiasmatic drugs, new: leukotriene antagonists, *July, p. 204
- antibiotic activity and alimentary tract surgery (*tip*), July, p. 270
- antibiotic prophylaxis for elective surgical procedures (*tip*), September, p. 300

- antiasmatic drugs, new: leukotriene antagonists, *July, p. 204
- antibiotic activity and alimentary tract surgery (*tip*), July, p. 270
- antibiotic prophylaxis for elective surgical procedures (*tip*), September, p. 300

antidepressants, use of, *September, p. 236

antiepileptic drugs, psychologic and behavioral effects of (*tip*), November, p. 272

antimicrobial agent, new, fluoroquinolone shows promise as (*med*), August, p. 207

antineoplastic agents, follow-up of children exposed in utero to (*tip*), December, p. 215

antithrombotic effects of exercise, *November, p. 207

anxiety disorders in family practice, spectrum of, *December, p. 167

aortic grafts, infrarenal, and gastrointestinal bleeding (*tip*), November, p. 246

aortic valve replacement (*tip*), October, p. 346

apnea

- infantile, and home monitoring devices (*ed*), October, p. 101
- sleep, patients with, are at risk of auto accidents (*med*), October, p. 258

appendicitis, laboratory and radiologic evaluation is not useful in (*med*), November, p. 238

argyria, *December, p. 151

arrhythmias

- cardiac, and psychologic stress (*tip*), September, p. 318
- in CHF, treatment of, requires individualized approach (*news*), July, p. 275
- in patients with COPD (*tip*), November, p. 286

arthritis

- in children, differential diagnosis of (*tip*), July, p. 235
- septic, in childhood (*tip*), December, p. 198

arts, occupational illness in, *November, p. 145

ascites

- in multiple myeloma (*tip*), August, p. 234
- myxedema, *August, p. 134

aspirin-induced gastric lesions, misoprostol heals (*med*), September, p. 252

athletes, anabolic steroid use by (FDA), September, p. 349

atresia, duodenal (*tip*), September, p. 310

atrial fibrillation, mitral annular calcium and (*tip*), September, p. 329

auto accidents, patients with sleep apnea are at risk of (*med*), October, p. 258

autologous blood transfusion (*tip*), September, p. 271

axillary node status in intraductal breast carcinoma (*tip*), October, p. 341

azathioprine

- cyclosporine vs., in kidney transplantation (*tip*), November, p. 258
- rheumatoid disease, and lymphoma (*tip*), October, p. 300

B

bacteremia, *Neisseria meningitidis*, in children (*tip*), November, p. 270

balloon counterpulsation, intra-aortic, complications of (*tip*), December, p. 233

basal cell carcinoma, *September, p. 219

bathing practices in families (*tip*), July, p. 224

beclomethasone aerosol, cough and wheezing with (*tip*), July, p. 241

bezoar, gastric, formation in diabetic patients (*tip*), September, p. 339

biliary tract disease in men and women (*tip*), December, p. 223

birth defects, spermicides and (*tip*), November, p. 244

bite wounds, human and animal, *July, p. 101

bladder cancer, superficial, adjuvant immunotherapy in (*tip*), September, p. 295

blood cultures, positive, interpreting the significance of (*tip*), September, p. 287

blood donors, elderly (*tip*), July, p. 260

blood pressure, sustained-release verapamil controls (*med*), August, p. 208

bone mineral content increases with estrogen and progesterone (*med*), September, p. 251

bone scintigraphy in children with obscure skeletal pain (*tip*), September, p. 330

borderline personality, childhood experiences may help explain (*med*), August, p. 208

botulinum toxin injection for strabismus in children (*tip*), December, p. 216

bowel, small, obstruction (*tip*), September, p. 329

brain, AIDS and, *December, p. 101

brain death, *August, p. 117

brain injuries, pediatric (*tip*), September, p. 317

brain tumors, early diagnosis of, *July, p. 149

breast, Paget's disease of, *August, p. 145

breast cancer

- chemotherapy after estrogenic recruitment in (*tip*), September, p. 272

- local recurrence of (*tip*), October, p. 325
- breast carcinoma, intraductal, axillary node status in (*tip*), October, p. 341
- breast disease, fibrocystic, *October, p. 119
- breast feeding, prolonged, and failure to thrive (*tip*), September, p. 318
- bromocriptine, psychiatric side effects of (*tip*), October, p. 271
- bronchoalveolar lavage, radiographic changes with (*tip*), October, p. 322
- bronchopulmonary dysplasia, sequelae from (*tip*), October, p. 288
- Buerger's disease (*tip*), December, p. 225
- bulimia, medical complications of (*tip*), October, p. 326
- burns, pediatric, *October, p. 139
- bupirone shows efficacy and safety in long-term use (*med*), November, p. 238

C

- calcium, vitamin D and, may prevent steroid-induced osteoporosis (*med*), November, p. 237
- cancer
 - bladder, superficial, adjuvant immunotherapy in (*tip*), September, p. 295
 - breast, chemotherapy after estrogenic recruitment in (*tip*), September, p. 272
 - breast, local recurrence of (*tip*), October, p. 325
 - clodronate for hypercalcemia related to (*tip*), October, p. 288
 - colorectal, metastatic, 5-fluorouracil and folinic acid for (*tip*), July, p. 214

- colorectal, national polyp study documents evolution of (*med*), October, p. 258
- colorectal, staging systems for (*tip*), November, p. 264
- lung, diagnostic imaging in (*tip*), October, p. 282
- lung, small cell, postchemotherapy resection of (*tip*), November, p. 270
- prostate, *October, p. 217
- risk of, serum selenium and (*tip*), October, p. 287
- thyroid, reliability of imaging studies in diagnosing (*tip*), December, p. 203
- cancer patients, ketoconazole for prevention of candidiasis in (*tip*), September, p. 262
- cancer therapy, interferons in (*tip*), November, p. 284
- cancer treatment, tumor lymphocytes show promise in (*med*), October, p. 260
- candidiasis
 - in cancer patients, ketoconazole for prevention of (*tip*), September, p. 262
 - vaginal, chronic, with HIV infection (*tip*), October, p. 272
- carcinoma
 - basal cell, *September, p. 219
 - breast, intraductal, axillary node status in (*tip*), October, p. 341
 - hepatocellular, hepatitis B virus and (*tip*), September, p. 287
 - small cell, of the lung, surgery for (*tip*), October, p. 295
- cardiac complications of alcoholic pancreatitis (*tip*), September, p. 300
- carotenemia, *July, p. 135
- catecholamines, plasma, in mitral stenosis (*tip*), October, p. 308

- CDC guidelines to prevent AIDS in health care workers (*news*), October, p. 357
- cellulitis and related skin infections, *September, p. 126
- cephalosporin therapy for childhood meningitis, *September, p. 185
- cerebral blood flow, focal regulation of (*tip*), November, p. 280
- cervical spine injuries in children (*tip*), July, p. 228
- cervical spine radiographs in trauma patients (*tip*), September, p. 330
- chemotherapy
 - after estrogenic recruitment in breast cancer (*tip*), September, p. 272
 - infusion, of the liver (*tip*), October, p. 344
 - radiation and, following pancreatic resection (*tip*), October, p. 293
- chest injury, blunt, coronary artery damage from (*tip*), November, p. 254
- chiggers, *August, p. 149
- child
 - with febrile seizures, *November, p. 163
 - ill, chronically, helping the family with, *November, p. 214
- childhood
 - benign epilepsy of (*tip*), October, p. 328
 - septic arthritis in (*tip*), December, p. 198
 - tic disorders in (*tip*), July, p. 248
- childhood experiences may help explain borderline personality (*med*), August, p. 208
- childhood headaches: characteristics suggest diagnosis (*news*), August, p. 235
- childhood meningitis, cephalosporin therapy for, *September, p. 185

childhood migraine, anxiety and life events in (*tip*), October, p. 265

childhood reactions to illness and hospitalization, *September, p. 227

children

—under age three, adverse reactions to food in (*tip*), September, p. 295

—air gun injuries in, *December, p. 157

—arthritis in, differential diagnosis of (*tip*), July, p. 235

—bacteremia, *Neisseria meningitidis*, in (*tip*), November, p. 270

—cervical spine injuries in (*tip*), July, p. 228

—chronic illness, disability and mental well-being in (*tip*), October, p. 322

—with chronic illness, growth in (*tip*), September, p. 296

—cough, persistent, in (*tip*), July, p. 264

—with Crohn's disease often have upper GI involvement (*med*), November, p. 237

—diabetic, hematuria and hypercalciuria in (*tip*), October, p. 346

—with enteroviral meningitis, outcome of (*tip*), September, p. 302

—exposed in utero to antineoplastic agents, follow-up of (*tip*), December, p. 215

—foreign-born, adopted, medical problems of (*ed*), November, p. 112

—head trauma, minor, in, parental reactions to (*tip*), December, p. 197

—with HIV, day care for (*tip*), August, p. 232

—malnourished, severely, psychosocial development of (*tip*), August, p. 225

—with obscure skeletal pain, bone scintigraphy in (*tip*), September, p. 330

—preschool, chronic digestive problems in (*tip*), October, p. 300

—preschool, sleep disturbances in (*tip*), September, p. 340

—preschool, stomachaches and headaches in (*tip*), September, p. 308

—SIDS, siblings of (*tip*), November, p. 240

—sorbitol may underlie fruit juice intolerance in (*med*), September, p. 252

—strabismus in, botulinum toxin injection for (*tip*), December, p. 216

—urban, *Toxicara canis* in (*tip*), December, p. 212

—young, intervention programs in (*tip*), July, p. 230

cholesterol-lowering agent: lovastatin, *December, p. 189

chronic illness, growth in children with (*tip*), September, p. 296

chronically ill child, helping the family with, *November, p. 214

cigarette smoking and leukemia (*tip*), October, p. 336

cimetidine-induced hypotension (*tip*), July, p. 266

cisplatin for treatment of soft tissue sarcomas (*tip*), August, p. 225

clodronate for hypercalcemia related to cancer (*tip*), October, p. 288

cobalamin levels, serum, low, and primary dementia (*tip*), August, p. 220

cocaine and sudden death, *October, p. 227

cocaine addiction, research on, continues as use increases (*news*), September, p. 354

cocaine administration, uterine blood flow after (*tip*), July, p. 226

cold water immersion, dysrhythmia following (*tip*), October, p. 319

colic

—infantile, *September, p. 153

—infantile, milk protein intolerance and (*tip*), September, p. 274

colon, villous and tubulovillous, adenomas of (*tip*), August, p. 231

colonic angiodysplasia (*tip*), September, p. 322

colorectal cancer

—metastatic, 5-fluorouracil and folinic acid for (*tip*), July, p. 214

—national polyp study documents evolution of (*med*), October, p. 258

—staging systems for (*tip*), November, p. 264

colovesical fistula, one-stage resection of (*tip*), August, p. 214

condoms, AIDS and (*FDA*), December, p. 229

congenital anomalies, minor, predictive value of (*tip*), September, p. 307

COPD, patients with, arrhythmias in (*tip*), November, p. 290

corneal perforation caused by dysgonic fermenter-2 (*tip*), October, p. 281

coronary artery damage from blunt chest injury (*tip*), November, p. 254

coronary artery disease

—earlobe crease and (*tip*), July, p. 223

—outpatient management of, *July, p. 191

- coronary artery stenosis, residual, after thrombolysis (*tip*), October, p. 320
- cough
 - persistent, in children (*tip*), July, p. 264
 - and wheezing with beclomethasone aerosol (*tip*), July, p. 241
- Crohn's disease
 - children with, often have upper GI involvement (*med*), November, p. 237
 - transfusion increases risk of infection in (*med*), October, p. 258
- croup syndrome, *October, p. 207
- cryptosporidiosis
 - *October, p. 201
 - (*tip*), November, p. 260
- cultures, blood, positive, interpreting the significance of (*tip*), September, p. 287
- cyclosporine
 - vs. azathioprine in kidney transplantation (*tip*), November, p. 258
 - an immunologic breakthrough, *September, p. 245
- cystosarcoma phylloides, prognostic indicators in (*tip*), November, p. 243

D

- dancers, ballet, mitral valve prolapse in (*tip*), July, p. 230
- day care for children with HIV (*tip*), August, p. 232
- dealing homes, hazards of (*tip*), November, p. 282
- dementia, primary, low serum cobalamin levels and (*tip*), August, p. 220
- depression in Southeast Asian refugees, *October, p. 179
- dexamethasone to reduce interleukin-2 toxicity (*tip*), September, p. 288
- diabetes
 - diet and exercise (*ed*), September, p. 102
 - gestational, *December, p. 119
- diabetic children, hematuria and hypercalciuria in (*tip*), October, p. 346
- diabetic patients, gastric bezoar formation in (*tip*), September, p. 339
- diarrhea, postcholecystectomy (*tip*), October, p. 344
- diet and exercise, diabetes (*ed*), September, p. 102
- digestive problems, chronic, in preschool children (*tip*), October, p. 300
- digitalis and myocardial infarct size (*tip*), October, p. 336
- dipyridamole, myocardial ischemia induced by (*tip*), July, p. 242
- disability, chronic illness, and mental well-being in children (*tip*), October, p. 322
- Down's syndrome
 - life expectancy in (*tip*), October, p. 306
 - screening for (*tip*), November, p. 286
- drug therapy in the elderly: effects on mental status, *October, p. 149
- duodenal atresia (*tip*), September, p. 310
- Dupuytren's contracture (*tip*), December, p. 228
- dysgonic fermenter-2, corneal perforation caused by (*tip*), October, p. 281
- dysplasia, bronchopulmonary, sequelae from (*tip*), October, p. 288
- dysrhythmia following cold water immersion (*tip*), October, p. 319

E

- ear, normal, otalgia with, *October, p. 129
- ear effusion, middle, chronic, medical management of (*tip*), December, p. 229
- earlobe crease and coronary artery disease (*tip*), July, p. 223
- ectopic thyroid tissue, *September, p. 147
- eczema, atopic, growth impairment associated with (*tip*), July, p. 226
- edema, pulmonary, neurogenic, *September, p. 141
- elderly
 - alcoholism in, *August, p. 163
 - drug therapy in: effects on mental status, *October, p. 149
 - hearing loss in, *September, p. 107
 - herniorrhaphy in (*tip*), October, p. 313
 - tuberculin testing in, significance of (*tip*), November, p. 252
- elderly blood donors (*tip*), July, p. 260
- embolism, pulmonary, screening tests for (*tip*), August, p. 212
- emergency patients, HIV in (*tip*), September, p. 268
- emergency rooms, immunization in, may be practical (*med*), September, p. 252
- empyema may occur in healthy persons under age 40 (*med*), October, p. 260
- endoscopy, gastrointestinal, upper, hypoxemia during (*tip*), October, p. 319
- enteropathy, protein-losing, in-intestinal Kaposi's sarcoma (*tip*), October, p. 265
- epilepsy, benign, of childhood (*tip*), October, p. 328

epinephrine for wheezing in infants (*tip*), October, p. 272
 equestrian sports, accidents in, *September, p. 209
 esophageal leiomyoma, *December, p. 161
 esophageal ulcers, HIV infection may be manifested by (*med*), October, p. 260
 esophagitis, herpes, in immunocompetent patients, *July, p. 160
 esophagus, irritable: a frequent cause of angina-like pain (*tip*), December, p. 209
 estradiol patch is effective for estrogen replacement therapy (*med*), August, p. 207
 estrogen and progesterone, bone mineral content increases with (*med*), September, p. 251
 estrogen replacement therapy, estradiol patch is effective for (*med*), August, p. 207
 estrogenic recruitment in breast cancer, chemotherapy after (*tip*), September, p. 272
 exercise
 —antithrombotic effects of, *November, p. 207
 —diabetes, diet and (*ed*), September, p. 102

F

failure to thrive
 —parental health beliefs and (*tip*), December, p. 218
 —prolonged breast feeding and (*tip*), September, p. 318
 fathers, adolescent, antisocial behavior in (*tip*), July, p. 251
 febrile seizures, child with, *November, p. 163
 feeding, infant (*ed*), July, p. 94

fetal AIDS syndrome, scoring system for (*tip*), November, p. 251
 fetal hypothyroidism and intellectual outcome (*tip*), September, p. 313
 fibrocystic breast disease, *October, p. 119
 Fitz-Hugh-Curtis syndrome, *October, p. 162
 fluoroquinolone, new, shows promise as antimicrobial agent (*med*), August, p. 207
 5-fluorouracil and folinic acid for metastatic colorectal cancer (*tip*), July, p. 214
 folinic acid, 5-fluorouracil and, for metastatic colorectal cancer (*tip*), July, p. 214
 foods, adverse reactions to, in children under age three (*tip*), September, p. 295
 foreign bodies, laryngotracheal (*tip*), September, p. 334
 fractures, stress, *September, p. 115

G

⁶⁷Ga imaging in sarcoidosis, parotid gland biopsy and (*tip*), September, p. 278
 gallium scanning in AIDS (*tip*), July, p. 218
 gallstones, treatment of (*tip*), September, p. 281
 gastric lesions, aspirin-induced, misoprostol heals (*med*), September, p. 252
 gastric restrictive operations, reevaluation of (*tip*), September, p. 325
 gastrointestinal bleeding, infrarenal aortic grafts and (*tip*), November, p. 246
 genitourinary tract infections, single-dose therapy for, *December, p. 111

geriatric assessment, comprehensive, improves care (*news*), December, p. 233
 gestational diabetes, *December, p. 119
 GI involvement, upper, children with Crohn's disease often have (*med*), November, p. 237
 growth in children with chronic illness (*tip*), September, p. 296
 growth impairment associated with atopic eczema (*tip*), July, p. 226

H

handicapped, sexuality in, *July, p. 129
 head trauma, minor, in children, parental reactions to (*tip*), December, p. 197
 headaches
 —childhood: characteristics suggest diagnosis (*news*), August, p. 235
 —stomachaches and, in preschool children (*tip*), September, p. 308
 health care workers, CDC guidelines to prevent AIDS in (*news*), October, p. 357
 hearing loss
 —in the elderly, *September, p. 107
 —noise-induced: the family physician's role, *December, p. 141
 Heimlich maneuver, vomiting as a complication of (*tip*), December, p. 223
 hematuria
 —and hypercalciuria in diabetic children (*tip*), October, p. 346
 —after trauma, urography for evaluation of (*tip*), August, p. 220
 hemophilia, acquired (*tip*), October, p. 282
 hepatic tumors, resection of (*tip*), October, p. 308

hepatitis, viral, and international travel, *July, p. 179
 hepatitis B virus and hepatocellular carcinoma (*tip*), September, p. 287
 herniorrhaphy in the elderly (*tip*), October, p. 313
 herpes esophagitis in immunocompetent patients, *July, p. 160
 herpes zoster
 —risk of AIDS after (*tip*), September, p. 266
 —as a sign of AIDS-related complex, *October, p. 233
 hilus cell tumor of the ovary (*tip*), July, p. 269
 hirsutism, drug therapy for, *August, p. 196
HIV
 —changes in the prevalence of, 'safe sex' and (*tip*), July, p. 213
 —children with, day care for (*tip*), August, p. 232
 —in emergency patients (*tip*), September, p. 268
HIV infection
 —chronic vaginal candidiasis with (*tip*), October, p. 272
 —and international travel, *September, p. 197
 —may be manifested by esophageal ulcers (*med*), October, p. 260
 home monitoring devices, infantile apnea and (*ed*), October, p. 101
 homosexuality in adolescent boys (*tip*), September, p. 322
 hospitalization, illness and, childhood reactions to, *September, p. 227
 human growth hormone therapy for short stature (*tip*), September, p. 276
 hydrohematometocolpos (*tip*), October, p. 271

hypercalcemia related to cancer, clodronate for (*tip*), October, p. 288
 hypercalciuria, hematuria and, in diabetic children (*tip*), October, p. 346
 hypercholesterolemia
 —step management of, *October, p. 238
 —treating, national panel recommends new approach to (*news*), November, p. 294
 hyperparathyroidism, primary, with myotonic dystrophy (*tip*), September, p. 340
 hypertension, renovascular, in pediatric patients (*tip*), December, p. 200
 hypotension
 —cimetidine-induced (*tip*), July, p. 266
 —nifedipine-induced (*tip*), September, p. 291
 hypothyroidism, fetal, and intellectual outcome (*tip*), September, p. 313
 hypoxemia during upper gastrointestinal endoscopy (*tip*), October, p. 319
 hypoxia, antenatal, and low IQ scores (*tip*), July, p. 223

I

illness
 —chronic, disability and mental well-being in children (*tip*), October, p. 322
 —and hospitalization, childhood reactions to, *September, p. 227
 imaging studies, reliability of, in diagnosing thyroid cancer (*tip*), December, p. 203
 immune globulin therapy, high-dose, for Kawasaki disease (*tip*), September, p. 261

immunization in emergency rooms may be practical (*med*), September, p. 252
 immunotherapy, adjuvant, in superficial bladder cancer (*tip*), September, p. 295
 infancy, liver transplant in (*tip*), September, p. 320
 infant feeding (*ed*), July, p. 94
 infant nutrition, *August, p. 173
 infantile colic
 —*September, p. 153
 —milk protein intolerance and (*tip*), September, p. 274
 infants
 —epinephrine for wheezing in (*tip*), October, p. 272
 —premature, retinopathy in (*tip*), July, p. 217
 —preterm, respiratory patterns in, after transfusion (*tip*), December, p. 206
 —uncircumcised, urinary tract infections in (*tip*), September, p. 339
 infarction, acute, metoprolol improves ventricular function in (*med*), September, p. 251
 interferons in cancer therapy (*tip*), November, p. 284
 interleukin-2 toxicity, dexamethasone to reduce (*tip*), September, p. 288
 intervention programs in young children (*tip*), July, p. 230
 intestinal ischemia, oxygenated perfluorocarbons in (*tip*), August, p. 222
 intestinal Kaposi's sarcoma, protein-losing enteropathy in (*tip*), October, p. 265
 intestinal parasites in pet store puppies (*tip*), July, p. 213
 IQ scores, low, antenatal hypoxia and (*tip*), July, p. 223

iron status, serum, low, and akathisia (*tip*), November, p. 244

J

K

Kaposi's sarcoma

- AIDS patients with, may benefit from zidovudine (*med*), September, p. 251
- intestinal, protein-losing enteropathy in (*tip*), October, p. 265

Kawasaki disease

- coronary artery aneurysms in (*tip*), July, p. 266
- high-dose immune globulin therapy for (*tip*), September, p. 261

ketoacidosis, diabetic, plasma potassium levels in (*tip*), December, p. 197

ketoconazole for prevention of candidiasis in cancer patients (*tip*), September, p. 262

kidney disease, polycystic, adult, *October, p. 157

kidney transplantation, cyclosporine vs. azathioprine in (*tip*), November, p. 258

L

laryngotracheal foreign bodies (*tip*), September, p. 334

lavage, bronchoalveolar, radiographic changes with (*tip*), October, p. 322

lead poisoning, acute (*tip*), December, p. 206

legionnaires' disease acquired from home water supplies (*tip*), August, p. 222

leiomyoma, esophageal, *December, p. 161

leukemia, cigarette smoking and (*tip*), October, p. 336

leukotriene antagonists: new antiasthmatic drugs, *July, p. 204

life expectancy in Down's syndrome (*tip*), October, p. 306

lithium therapy for affective disorders, *July, p. 169

lithium toxicity, *November, p. 225

liver, infusion chemotherapy of (*tip*), October, p. 344

liver resection, risk factors in (*tip*), July, p. 236

liver transplant in infancy (*tip*), September, p. 320

lovastatin: cholesterol-lowering agent, *December, p. 189

lung, small cell carcinoma of, surgery in (*tip*), October, p. 295

lung biopsy, fine-needle, cytologic diagnosis by (*tip*), September, p. 281

lung cancer

—diagnostic imaging in (*tip*), October, p. 282

—small cell, postchemotherapy resection of (*tip*), November, p. 270

lung tumors, sulcus, superior (*tip*), November, p. 258

lymphadenopathy syndrome and subsequent AIDS (*tip*), July, p. 270

lymphoma, rheumatoid disease, azathioprine and (*tip*), October, p. 300

M

macule, brown, solitary, *November, p. 155

magnetic resonance imaging of the spine, *August, p. 155

malignancy, pericardial and myocardial, metastatic (*tip*), September, p. 262

malnourished children, severely, psychosocial development of (*tip*), August, p. 225

mammary duct ectasia (*tip*), July, p. 218

melanoma

—of the mucosa (*tip*), December, p. 198

—stage IV, surgery for (*tip*), August, p. 219

meningitis

—childhood, cephalosporin therapy for, *September, p. 185

—enteroviral, outcome of children with (*tip*), September, p. 302

—tuberculous (*tip*), December, p. 203

mental status, effects on: drug therapy in the elderly, *October, p. 149

mental well-being, chronic illness, disability and, in children (*tip*), October, p. 322

methemoglobinemia and well water (*tip*), October, p. 303

metoprolol improves ventricular function in acute infarction (*med*), September, p. 251

microbiologic agents, common, rapid assay kits for, *November, p. 169

migraine, childhood, anxiety and life events in (*tip*), October, p. 265

milk protein intolerance and infantile colic (*tip*), September, p. 274

minoxidil: hope for the bald? (*tip*), October, p. 313

misoprostol heals aspirin-induced gastric lesions (*med*), September, p. 252

mitral annular calcium and atrial fibrillation (*tip*), September, p. 329

mitral stenosis, plasma catecholamines in (*tip*), October, p. 308

mitral valve prolapse in ballet dancers (*tip*), July, p. 230

monoclonal antibodies, therapeutic potential of (*tip*), November, p. 279

mononucleosis, infectious, postanginal sepsis following (*tip*), December, p. 210

MRI for locating sites of healed myocardial infarction (*tip*), July, p. 228

mucosa, melanoma of (*tip*), December, p. 198

multiple sclerosis, amantadine in (*tip*), July, p. 220

Munchausen syndrome by proxy, *July, p. 119

mushroom poisoning (*tip*), November, p. 263

myeloma, multiple, ascites in (*tip*), August, p. 234

myocardial infarct size, digitalis and (*tip*), October, p. 336

myocardial infarction

- following coronary angioplasty (*tip*), September, p. 307
- healed, MRI for locating sites of (*tip*), July, p. 228
- ventricular ectopic activity after (*tip*), October, p. 348

myocardial ischemia induced by dipyridamole (*tip*), July, p. 242

myocardial malignancy, pericardial and, metastatic (*tip*), September, p. 262

myotonic dystrophy, primary hyperparathyroidism in (*tip*), September, p. 340

myxedema ascites, *August, p. 134

WHEN TIME IS CRITICAL...

The medical information you need now on demand... in just minutes

The most complete medical data base...at your fingertips

Now, you can tap into the largest, most complete medical information resource in the world: the National Library of Medicine. The Friends of the NLM—a non-profit organization—wants you to find out more about this unique link to the world's medical knowledge. To do so, simply use the coupon below. You owe it to yourself and your patients.

"The more you know, the better you heal"

Friends of the NLM
424 C Street, N.E.
Washington, D.C. 20002

☐ Please send me more information about the NLM and the services it offers.

☐ Please enroll me in the Friends of the National Library of Medicine. My tax-deductible check for \$35.00 (member) or \$100.00 (sponsor) is enclosed.
